**Required readings : (articles uploaded)**

Evans & Green (2007) "Why EAP is necessary? A survey of Hong Kong tertiary students"

Hyland & Hamp-Lyons (2002) "EAP: issues and direction"

## ESP Task 3

The third task throughout the design of an ESP course is selecting specimen materials based on data you collected and analysed in your previous tasks.

Task 1 (Needs Analysis) (Completed)

Task 2 ( Syllabus Type) (Completed)

Task 3 (Material Design)

### SECTION 3: TEACHING MATERIALS

- A selection of teaching materials produced by you for 6 teaching hours.(1 or 2 Units)
- A rationale for your materials, including justification for the choice of authentic texts, methodology, sequencing of activities, layout, pacing, and revision, with reference to your readings on developing materials.

You must be able to show that they can produce or adapt reasonable teaching materials appropriate for the planned course.

You have to demonstrate an activity from your materials to the group. This is a good opportunity for you to test your materials and get feedback from others. It is a requirement and it is graded as part of your final coursework.

Feedback on your tasks will be sent to you via email alongside any update on meeting and submission deadlines.
