Work Offered

Join the Wellcome-Wolfson Institute for Experimental Medicine (WWIEM) School of Medicine, Dentistry and Biomedical Sciences, Queen's University Belfast for its new online summer student research programme for 2021 - iENGAGE, a six week virtual programme.

By joining iENGAGE:

You will have the opportunity to develop your scientific skills with world-class scientists at the WWIEM working on:

- Immunology and Microbes
- Respiratory Medicine
- Vision and Vascular Medicine

You will participate in:

1. Seminars and journal clubs focused on weekly topics
2. Professional and career development roundtables with a diverse range of panellists
3. Data analysis, scientific writing and project design
4. End-of-week thematic networking and social events.

You will gain training with video tutorials on the many cutting-edge technologies present at the WWIEM (e.g. stem cell biology, single-cell sequencing, CyTOF mass cytometry and 3D organoid models of disease).

How and when?

The programme will be delivered via Microsoft Teams over a period of 6 weeks in the summer of 2021 (from 28th June to 6th August). The successful candidates will receive further details closer to the starting date.

Who can apply?

iENGAGE is aimed at undergraduate students in the areas of Biomedical, Medical, Health and Life Sciences degrees. Students from around the world are welcome to apply.

The selection process:

iENGAGE has a limited number of places and the students will be selected based on their motivation to join the programme. Worldwide participation in the iENGAGE programme will be key for the success of the programme. For this reason, the selection process will ensure a fair and balanced country representation.

Applicants will be informed of the outcome by 15 April 2021.

In your cover letter - please address the following

Why do you wish to enrol in the iENGAGE online summer programme? (250 word limit)

AND

What do you hope to learn from iENGAGE and how will the programme benefit your future career? (150 word limit)
