

**Form A**

**Section One: Reading (Questions 1-12)**  
 Read the following text and choose the correct answer (A), (B), (C), or (D) for each of the following.

**Are you happy with your work/life balance?**

**Dan, Boston, USA.**

I'm not happy with my work-life balance at all. I work at least 50 or 60 hours a week so I don't have any time at all for myself or to see my children. I communicate with my wife by leaving messages on the fridge. We hardly ever see each other because we work different hours and I never have time to see my friends or keep fit. Also, I eat very badly because my lunch 'hour' (about 10 minutes) isn't long enough for me to have a proper meal. OK, I earn a lot of money but I don't have enough time, is it worth it?

**Nayuha, Tokyo, Japan.**

Yes, I am happy with it because I've chosen a lifestyle that I like and that gives me quite a lot of free time. But my father, on the other hand, works more than 70 hours a week for a car company, which I think is madness. Lots of Japanese people do the same. There's an expression in Japanese, karoshi, which means 'dying because you work too hard'. A lot of people in Japan get ill or die because they work too much. I think my generation is different. We don't want our lives to be ruled by work. I work a few hours a day in a store - that gives me enough money to live. I spend the rest of my time seeing my friends and playing baseball.
